

Working together to ensure foster youth thrive, not just survive.

Giving Circle Levels & Benefits

CASA Sacramento's Giving Circle consists of our supporters who make a recurring monthly donation of any amount. As a Giving Circle member, your tax-deductible gift makes a tremendous difference in our ability to match Sacramento County's most at-risk foster youth with advocates. At the same time, consistent monthly donations help us to better manage our program and maximize the dollar value of your contribution. Studies show a CASA volunteer can often spare youth months, or even years, in foster care; a powerful impact of your investment in our program. You can choose how to provide your monthly gift – charged to your credit card (through our website - <http://bit.do/Donate2CASASac>), automatic bill pay, PayPal, workplace giving campaign (such as United Way) payroll deduction, or a hard copy check.

It costs us approximately \$1,500/year to support a single volunteer advocate. The majority of our youth are transition-age (14 – 17 years) or non-minor dependents (18 – 21 years in extended foster care). A gift of \$125/month enables a CASA volunteer advocate to help a youth adjust to new placements, finish high school, explore advanced education and career opportunities, secure housing and become productive members of our community.
